I very much hope you will honor the process that such a huge and potentially devastating project should require.

You need to require DEQ to hold public hearings on the additional information submitted by the ACP.

We ask that you authorize the DEQ to IMMEDIATELY plan for at least 3 more public hearings along the proposed ACP corridor to address the economic development, health, safety and environmental concerns being raised, as well as claims and information submitted by the Atlantic Coast Pipeline (ACP, LLC) since the close of the original comment period. We ask that you take a firm stance against the ACP as for offshore drilling. Both of these proposed projects would lock North Carolina into another generation of fossil fuel use, delaying the shift to more cost effective and cleaner energy sources, and the adverse impacts would greatly outweigh any benefits.

Thank you for your time - Katherine
